

Office of Accessible Education

BONDS ADMINISTRATION BUILDING

MISSION

The Office of Accessible Education (OAE) collaborates with students, faculty, and staff to help create equitable, inclusive educational environments for qualified students with disabilities. Accessible Education works to address educational barriers by providing access to reasonable accommodations, services and resources while maintaining the rigorous academic standards and integrity of Baldwin Wallace University. We engage in outreach across campus to ensure a more accessible and welcoming environment for people with varying disabilities including psychological, medical, physical or learning specific.

HOW TO APPLY

1. Self-disclose and Apply. Please complete and submit the online OAE Application for Accommodations. The application serves as disclosure of your disability/condition and specifies the accommodations you are seeking.
2. Submit appropriate documentation. Provide current documentation of your disability and the disability-related need for any specific accommodation(s) being requested. Current documentation is necessary for verification purposes and to determine reasonable accommodations. Please use our documentation guidelines and verification forms to assist in the submission of documentation.
3. Schedule and attend a Student Welcome Meeting. Upon receipt of the online application and supporting documentation, OAE will reach out to schedule a meeting to discuss the impact, nature and functional limitations of your disability; determine eligibility for reasonable accommodations; and discuss processes, policies and procedures.
