

Thanks for the opportunity through **idesign - Online Instructor Pathway** to learn about the Community of Inquiry approach. I had never heard of it, so there was a great return on the time investment for me.

Brian L. Thomas (He/Him/His)

Professor and Chair, Department of Psychology

Thank you for providing the **Gagne** opportunity, it was immensely helpful and has changed my approach to designing my courses. I hope I have completed this correctly and look forward to any feedback. I chose to work with one of the most theoretical and 'boring' sections of my SPM 340 course. I used to start this section by saying "this section is tough and dry.....bear with me for the next few weeks", but now I am excited to teach it this fall. Amazing job on the materials, Susan. Thank you for your work on this, I learned a lot.

Thank you again,

Dale Sheptak

Business

Thank you so much for sending along this certificate! I really enjoyed **The Blended Learning** about Google applications and can see how I might use them in my classes. My students are comfortable using Google apps, so this was helpful for me to see where they're coming from, and to help them navigate the change to Bb and Microsoft. Thank you for offering such an interesting and educational course - I feel like I learned so much

Jennifer Perry

Psychology

James and I have enjoyed our "partnership of inquiry" time during the Faculty Center Summer Academy **Processing Pandemic Teaching, Learning and Student Engagement**. We look forward to sharing with colleagues what we've learned.
