

# Selecting the Array Microphone when Connecting a USB Webcam (or another USB Mic) to the Classroom Media Cart

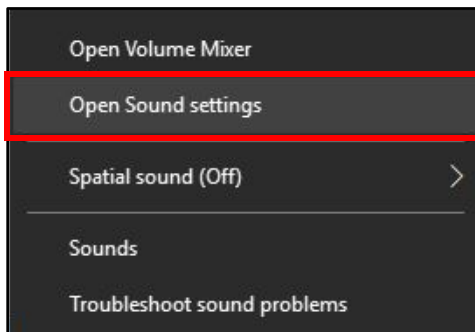

(for rooms with the “Acoustic Magic Voice Tracker III” Array Microphones)

1. Log in to the computer on the classroom media cart.
2. The Array Microphone is set as the default mic. If another USB device with a microphone (such as a USB webcam or an additional mic) is plugged in, you will need to re-select the Array Microphone.
3. Plug-in the USB webcam (or other USB microphone) to the front USB port of the podium computer or USB port on the podium display (if available).
4. Right click on the speaker icon located on the lower right-hand side of the menu bar.

5. Select “Open Sound Settings”

6. Scroll down to the Input section of the Sound Menu and Select “Microphone Array (Plugable USB Audio Device)”
