

## Verifying the External Hyperlinks in your Canvas Courses

Log into Canvas (<https://canvas.bw.edu>). From the left navigation, click on “Account.” Next, click on “Quickly Tools” and then click the “Authorize” button.

From the Quickly Course Tools click “Check Links.”

Choose one or more of your courses to review and check the box(es). It will show a list of all your hyperlinks. Good links will have a green check mark. Bad links have a red X and need to be repaired.
