

Making Changes to Canvas Course Menus

Log into Canvas (<https://canvas.bw.edu>). From your Dashboard, open any course.

From the menu, choose “Settings” and then click on the “Navigation” tab. You will see that there are two sections. The top section displays the items (and order) that your students will see on the course menu. The bottom section includes things you’ve hidden (not using). You can move items from one section to the other and re-order your items with a simple click and drag. DON’T FORGET TO CLICK THE SAVE BUTTON AT THE BOTTOM TO SAVE YOUR CHANGES!

Note: The  symbol next to an item indicates that there is no content in that section.
